Fannin is a leading healthcare provider in Ireland and the UK. Fannin first established its Pharmacy Department in the 1890s. In 2002 Fannin strengthened its pharmaceutical presence through the acquisition of TechnoPharm Limited who had rapidly developed a reputation for the introduction of high quality, innovative and cost effective medicines and services. In 2006 we launched our presence in the UK, quickly gaining market share in the area of small volume parenterals.

Fannin has a highly skilled and experienced Regulatory Team in place who can offer consultancy services to meet your outsourcing needs. Our Regulatory Professionals have over 45 years of combined experience in the business and operate from bases in the UK and Ireland.
